ROYAL EXTERIOR & INTERIOR 	<p>Protek's Royal range is a superior wood finish that has been specifically designed to give long-lasting, hard wearing protection. This wood stain has a thicker almost paint-like consistency & creates a protective weather-proof coating with a soft lustre that allows the wood grain to show through.</p> <p>The unique formulation is a water-based acrylic and alkyd hybrid that incorporates a polyurethane dispersion based on linseed oil. It produces a water resistant coating with mould and fungal protection. Royal Superior Wood Finish is low in odour and has a low VOC (volatile organic compounds) content. Suitable for use around animals, children & plants.</p> <p>Royal Exterior & Interior Superior Wood Finish is available in an extensive colour range that is classic, contemporary and fits perfectly with modern design.</p>	1 litre 2.5 litres 5 litres 25 litres	58	Conservatories Windows & Doors Summerhouses Log Cabins Gates Furniture (inside & out) Joinery & Cladding Softwood & Hardwood Vertical & Horizontal Use	6 - 10m ² per litre per coat 2 - 3 coats	2 - 5 years	Brush Roller Low pressure spray gun
WOOD STAIN & PROTECTOR 	<p>A multi-purpose versatile wood stain & protector that coats, colours and protects the whole garden. Wood Stain & Protector creates a micro-porous coating that contains a mould inhibitor and is very low in odour and VOC. It is so good that it will even adhere to masonry and terracotta pots. This stain works beautifully with garden sprayers to speed up all of those big jobs. Two coats is all it takes to protect your wood with only one coat being required for fencing. Further coats increases the solidity and depth of colour.</p> <p>Instantly rejuvenates tired and old timber transforming them into an integral part of a stunning garden design.</p>	1 litre 5 litres 25 litres	36	Sheds & Fencing Wendy Houses Trellises & Obelisks Arbours & Pergolas Pots & Planters Vertical surfaces	6 - 12m ² per litre per coat 2 - 3 coats	2 - 3 years	Brush Roller HVLP pump-up sprayer
CLEAR TOP COAT 	<p>As part of the Wood Stain & Protector range this wood stain dries from a milky liquid to a hard wearing clear coating that acts as a protective sealant to garden timber. Clear Top Coat can be applied as a water-proofing coating that will allow the timber to grey naturally with the sun, or can be used over the top of a coloured coating in the Wood Stain & Protector range to give added protection to areas that are subjected to high levels of wear & tear. If only one coloured coating is used for aesthetic purposes, an additional coating of Clear Top Coat will protect the coloured coating and increase the levels of water repellency.</p> <p>Protek Clear Top Coat is also ideal for protecting internal walls and floors in garden buildings and log cabins, and once dry, leaves a coating that can be wiped clean.</p>	1 litre 5 litres 25 litres	Clear	Sheds Fencing Play Equipment Animal Housing Vertical & Horizontal Use Clear protective top coat for coloured coat(ings)	6 - 12m ² per litre per coat 2 coats	2 - 3 years	Brush Roller HVLP pump-up sprayer
SHED & FENCE 	<p>Protek Shed & Fence is a water-resistant wood treatment that enhances the natural beauty of wood. It is a cost-effective wood stain that unlike many competitor brands can be applied to both planed (finished) and rough sawn timber. Shed & Fence is our basic economy range that offers great coverage and is of a thin watery consistency that is easily sprayed. For fencing 1 coat will colour and weather-proof with a 2nd deepening the colour & extending the lifespan. Available in traditional polys for home delivery & buckets for in-store.</p>	5 litres 25 litres	12	Fencing Sheds Trellises Animal Housing Vertical surfaces	8 - 12m ² per litre per coat 1 - 2 coats	1 - 2 years	Brush Roller HVLP pump-up sprayer
DECKING STAIN 	<p>Decking Stain has been formulated using a new generation resin that provides good adhesion to the timber substrate and creates a stronger bonding coating making it tougher and less prone to cracking and peeling. Its resin rich additives make it both flexible & hard-wearing with a high colour concentration that ensures it looks good and lasts. Decking Stain is a thin wood stain treatment that is designed to sear the timber and bond well into the surface. At the same time it will enrich and help to uphold the structural integrity of the timber.</p>	2.5 litres 25 litres	9	Decking & Balustrades Garden Furniture Softwood & Hardwood Vertical & Horizontal Use	8 - 12m ² per litre per coat 2 coats	1 - 3 years	Brush Roller HVLP pump-up sprayer
STABLE COAT 	<p>Stable Coat is a quality wood stain that has been created to produce a water-proof coating on pressure-treated timber buildings. It is a water-based micro-porous coating that incorporates an ultra-high performance water repellent additive that uses nano-technology to deliver an extreme hydrophobic layer of protection. The unique formulation has been designed to give a quick drying, hard wearing coating that is peel and crack resistant. For the first treatment it is recommended that 2 coats be applied with only 1 needed for future maintenance. Additional coats will deepen the colour and extend the life-span of the coating.</p>	5 litres 25 litres	4	Stables & Yard Fencing Outhouses Animal Housing Chicken Sheds Vertical & Horizontal Use	8 - 12m ² per litre per coat 1 - 2 coats	1 - 3 years	Brush Roller Low pressure sprayer
WOOD PRESERVER 	<p>Protek Wood Preserver is a new industry leading wood preserver for outside use. It has excellent eco-credentials containing active ingredients effective against wood destroying and wood discolouring fungi according to EN152, EN113, EN73 & EN84. Protek's Wood Preserver is a water-borne product based on modified vegetable oil. It is low in VOC, odourless once dry and complies with all the new biocidal legislation. It penetrates wood easily thereby getting deep in to inner layers. It is moisture regulating and provides an adhesive surface for subsequent treatment with finishing paints and wood stains (top coats) such as Protek's Royal Exterior Superior Wood Finish.</p>	1 litre 2.5 litres 5 litres 20 litres	Clear	All External Timber un-treated or where preservative treatment has expired	6m ² per litre per coat 2 - 3 coats depending on wood species & surface characteristics	up to 5 years	Synthetic brush designed for water-borne products

Protek woodstains are water-based & suitable for use around animals, birds, children & plants

*approximate coverage calculations. These vary depending on porosity of timber. 1st coat will absorb more product than subsequent coats

** varies according to exposure to sun and weather, levels of wear & tear and colour used (darker shades last longer)
