- Garden Furniture ☑
- Summerhouse ☑
- Wendy Houses ☑

***** 5 out of 5 (45 ratings)

Protek Decking Stain has been specially formulated to give all types of external timber decking an enriching colour that is hard wearing and lasts.

It can be applied to a wide variety of garden timbers including softwood and hardwood garden furniture and garden buildings for an extra level of waterproofing.

The decking stain has been formulated using a high quality resin that provides a good adhesion to the timber substrate and a stronger bonding coating making it tougher and less prone to cracking and peeling.

This linseed oil based product has low particle size that offers great wood penetration which reduces the moisture content making it less prone to damage from frost.

Product Key Facts

A water based acrylic and alkyd hybrid that comes from Linseed oil, a natural renewable resource.

Low VOC and low odour

Child, animal and plant safe – complies to EN71-3 relating to child toy safety

Water repellent

Peel and crack resistant

Great coverage

Quick drying

Light fast

Protects against frost

Easy water clean up

Available in 2.5 and 25 litre containers

Application tips

Coverage: approx 8m² per litre. An average 2.5 litre tin will cover 20m² depending on moisture content and porosity of timber.

We recommend applying 2 coats.

Apply the second coat between 2–4 hours after the first

What our customers say

'Very easy to apply and dries within 30 minutes. Delivery, unbelievably, the day after order placed'. Vic Queen

'Absolutely amazing product, before I have used other makes, this is by far the best'. Donna Lucas

'Excellent product. easy to apply, superior quality. Made my very grey looking decking look like new. The rain just sits on top of the decking now, excellent, very pleased. You get what you pay for, certainly worth every penny, would highly recommend. Very fast delivery and very well packaged. Thank you will certainly be using again'.

Adele Seabourne

'Good to spread, dries quickly, colour strong and is anti-slip when wet after drying. Would highly recommend' John Lowe
