

Garden Chair Makeover

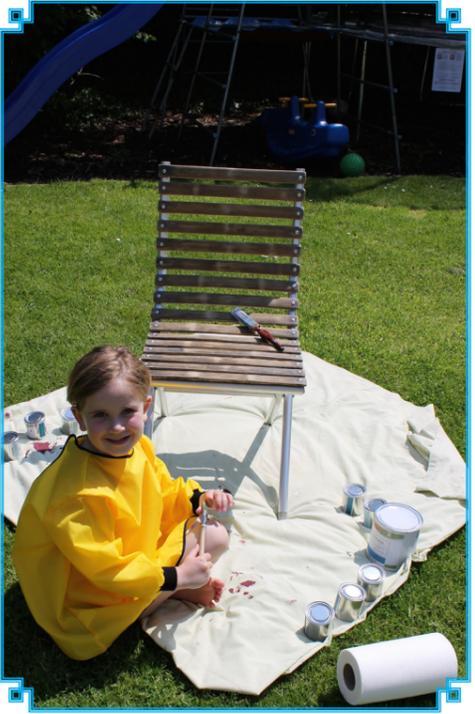

LEFT, ABOVE & RIGHT:
An old garden chair made of bamboo cane strips was very neglected and in need of a facelift. After a good sanding down with medium sandpaper to remove old dirt & algae it was time for the transformation to begin.

BELOW:
Two coats of Royal Exterior Wood Finish was applied in alternating stripes to create a fun and attractive chair, and with the sun still shining I was ready to sit back relax and admire the garden.

RIGHT:
I wanted to create a fun beach style chair so used sample pots of every blue within the Protek Royal Exterior range.

With my trusty assistant and the sun shining the painting fun commenced.

RIGHT:
Colours used from top to bottom;
Midnight Blue, Heritage Blue, Iris Blue, Teal, Eggshell Blue, Porcelain Blue, Mendip Mist, Somerset Blue, Ice Blue.

Seat section from top to bottom;
Midnight Blue, Eggshell Blue, Heritage Blue, Mendip Mist, Porcelain Blue, Ice Blue, Teal.
